

Innovation in Managing Health

FULLY AUTOMATED NOISE & VIBRATION MANAGEMENT

SIMPLE DATA DOWNLOAD

DATA ANALYSIS & REPORTS

Paperless System

Save time and effort by utilising the HAVI Diagnostix cloud based analytic platform. Effortless downloads ensure you can spend more time addressing the key issues in your business.

We Work With You

Whatever the size of your business, we work with you to ensure that your operatives are protected and that we fully support you to reduce risk and improve health outcomes.

Comply With Regulations

Our system will support you to ensure that your operatives are complying with the regulations and more importantly that they stay healthy in their job and uphold your reputation.
